

E-CLIL Overview

Written by Administrator

E-CLIL is European Union funded project to develop and build resources and a resource centre for the use of Content Language Integrated Learning (CLIL) see CLIL (<http://www.teachingenglish.org.uk/think/articles/content-language-integrated-learning>)

It focuses on language learning, learning strategies, multilingualism and multiculturalism. CLIL is dual-focused instruction during which language is taught at the same time as content from a different school subject. It has already been established as a valuable approach to both teaching foreign languages and specific subjects.

The project is being completed over 3 years and includes partners with a wide-experience of how to create CLIL content and the issues around CLIL.
